End Term Self Assessment

---

**Objectives:** The purpose of the End Term Self Assessment is to provide a basis for feedback and reflection regarding your progress in meeting the requirements of the course. This deliverable should constitute no less than two, and no more than three, double-spaced typewritten pages of text. Please consider the following aspects of your performance and participation in this course. Respond to each of the following questions as per your respective end of term self assessment.

1. First, state your purpose for enrolling in this class. Having stated said purpose, please comment on the extent to which you feel your objectives for taking this course were met or not met.
2. Comment on your participation in Class Lab and or Field Deliverables. Have you attended all class meetings and participated in all Labs and Field Deliverables conducted to date? To what extent do you feel you devoted yourself to the completion of Lab and Field deliverables?
3. How effectively have you used the Discussion Forums? Do you feel that your comments within the Discussion Forums adequately reflect the areas of study undertaken by each of the Deliverables in question? Are you satisfied with your responses to questions and comments posted to the Online Journal?
4. Please describe your final project, lab or field report, and or oral report in terms of some key concept(s) or idea(s) that most clearly defined your learning experience? [Disregard if you have chosen the Lab or Field Option over the writing of a final term project]. If you have chosen the Field Option, please comment on what you feel that you have learned from your work at the field site.
5. If applicable, please state in the most concise terms possible what it was that you originally had in mind in the way of a final project report. Did you remain true to your original project plan, or did you choose an alternative project for the final paper and or report? For those choosing the Lab Option, you should state whether or not you chose the Lithics Lab or the Garbology Project as the subject matter of your final report. For those who chose a library research paper, please provide at least four of the primary references that you used in the completion of your project paper.
6. What key concepts and areas of study drawn from selected Lab and or Field Deliverables proved of greatest interest to you? How were such concepts and areas of study reflected or not reflected in your final class project and or oral report?
7. Please comment on which Lab and or Field Deliverables you enjoyed most...and which you enjoyed least. Please provide recommendations on how you might improve on the content and type of Lab and or Field Deliverables offered in this section. What might you like to see added in the way of Lab and or Field Deliverables? Any ideas provided would be greatly appreciated!
8. Finally, what learning strategies proved most useful to your growth and improvement in meeting the learning requirements of this course? Moreover, please identify those areas of your learning style that you believe require further improvement. Please identify what you see to be your primary strengths with respect to Lab and or Field Deliverables completed to date.
