

CSUMB Archaeology Field Program

Carmel Mission Spring 2003

The CSUMB Institute for Archaeology will undertake a field program in archaeology at the Carmel Mission, California, in the spring of 2003 – January 31 to May 16, 2003. The program will focus on the recovery of the lost wine cellar of the Carmel Mission. With staircase partially exposed by Sir Harry Downie in the 1930s, the original wine cellar is purported to contain a vaulted arch. This project investigation will be undertaken by CSUMB Professor Ruben G. Mendoza (Ph.D., RPA) and Diocese Curator Sir Richard Menn, and will deploy state of the art Wireless technology and hand-held computers for archaeology provided through a grant from the US Department of Education.

**Interested in participating in the historic recovery
of the lost wine cellar of an early California Mission?**

**If so, then join us this Spring 2003 for the CSUMB archaeology
program at Mission San Carlos Borromeo del Rio Carmelo!**

CSUMB Student Enrollment Information:

- SBSC 260s (CRN 21916): Archaeology of a California Mission –
The Carmel Project (Carmel Mission, Fridays, 8:00 am – 11:50 am;
